Baby Banquet: The Safer and Easier Way to Feed Your Baby!

May 17, 2008 – Houston, Texas: Baby Banquet, LLC announces that it has officially launched its new hand-held baby food dispenser and toddler snack storage unit.

Baby Banquet is a new and innovative baby food dispenser and storage unit that has many different functions. It is perfect for feeding your baby at home or on the road. And, it can also be used for your toddler as it can store a juice box and snacks. There is no other product available like it.

Designed by a married couple from Texas; Baby Banquet is unlike all plates, bowls or cups available on the market that are advertised to make the baby feeding process easier. Baby Banquet is designed for the parent or caregiver to be able to comfortably hold multiple types of baby food in one (1) dispenser while feeding the baby with the other hand. It is perfect for traveling as well, and will initially be available in two (2) colors; baby blue and pink.

Baby Banquet's design is made up of (3) pieces. Each has its own advantage(s):

Base

- Can hold a juice box or a larger amount of multiple snacks.
- Can hold up to three (3) of the smaller jars of baby food under the insert. Great when away from home!

Insert

- Can hold up to (3) different baby foods (either by placing the jars in the insert or pouring from the container).
- Can hold up to (3) different types of snacks.

Lid

- Snaps in place to keep everything intact or fresh when storing leftovers in the refrigerator.

About Baby Banquet, LLC

There is a saying that "inspiration is the mother of invention," and that saying never held true more than it does for Baby Banquet, LLC. Elizabeth Meuser, CEO and co-founder of Baby Banquet, LLC, had a vision three (3) years ago while feeding her daughter, and that vision inspired her to create a company that specialized in products for parents that would enhance the parenting process.

Elizabeth's vision has now become a reality, as Baby Banquet, LLC is proud to launch its first product, aptly named "Baby Banquet," at the American Baby Faire on May 17, 2008 in Houston, Texas, the birthplace of Elizabeth, her daughter Zoe and the home base of Baby Banquet, LLC. "I am proud of my wife for her vision, and her tenacity in taking that vision to the ultimate level, the marketplace," said John Meuser, Sr. VP., COO and co-founder of Baby Banquet.

You can learn more about Baby Banquet and how to use it by visiting www.babybanquet.com.
